Greg,

Attached is the revised IGCE and the TO Request with SOW. I made a few changes to the IGCE:

- Recalculated labor ST and OT per the contract (OT is anything > 80hrs in a two-week period)
- Corrected lodging calculation from 286 total hours to 266.
- Changed number of personnel needing lodging from 10 to 9
- Removed generator charge from subcontract list
- Added diesel estimate for 5 pieces of equipment that use diesel
- Removed language about flying from HOU since no one was expected to
- Added three sources for flight estimates
- Added misc supplies list and rationale to the IGCE as a separate tab
- Removed screenshots for removed cost elements
- Added language to the assumptions tab for how each labor category would travel
- Removed mileage cost since the trucks are equipment

Possibly a few other things, this is what I can remember off the top of my head. The IGCE amount before contingency is \$974,000. I already have a funding approval email from Chris, so if you're good with these changes, I'll go ahead and sent the package for approval. Let me know. Thanks!
